

**OBLO Living announces cooperation with Qubino at CEDIA 2016  
Z-Wave Plus home automation nodes to be integrated into OBLO ecosystem**

**Novi Sad, Serbia – September 16, 2016** – OBLO Living, a company specialized in home automation solutions, today announces integration of Qubino Z-Wave Plus home automation nodes into OBLO ecosystem. OBLO end-to-end software solution, combined with OBLO gateway, and complemented by versatile Qubino nodes, sets up a **Z-Wave Plus compliant turn-key solution** for the new competitive home automation market.

Introducing the vast extent of Qubino product portfolio: dimmers, relays, shutters, thermostats, smart meter, and weather station, the turn-key solution will cover a range of use cases, including **shutter/window control, on/off switches, metering, lighting control, climate control, and weather station**. The smallest in the world, designed and manufactured in EU, low-power-consuming Qubino modules constitute a smart home system for full control, comfort and safety.

*“We are delighted to have partnered with Qubino, a company with rich product portfolio,”* said **Nikola Smiljkovic, VP Products and Marketing at OBLO Living**. *“Integration of their nodes demonstrates features of our OBLO gateway Z-Wave Plus compliant software in a turn-key solution ready to be placed on the market, and offered particularly to **service operators, installers and DIY businesses**.”*

*“The value of the partnership for Qubino is in the Z-Wave Plus certified turn-key home automation solution,”* said **Leon Kralj, CEO at Qubino**. *“Possessing a full range of products, Qubino partners with companies that can provide a system implementing the end-to-end solution, from our smart devices, through gateway, up to cloud services. We are glad to cooperate with OBLO Living, and to benefit from their strong expertise in technologies, protocols, embedded software development and product development. Partnering in the turn-key solution gives us the advantage to offer our products to a much wider customer base.”*
